PLANTING TIME

1947

This Spring is the time to plant Berry Plants, Fruit Trees, Gardens, Roses, and Evergreens. Small fruit planted this Spring will bear next year. This is your only chance to have your own fruit next year.

The shortage of fruit will continue for several years. You can help this shortage by planting a part of your garden or back yard to fruit. The quicker you get the trees and plants in the ground, the quicker they will produce.

Planting time is short—Just three months: March, April, May. Get your orders in early, as the supply of Nursery goods is not large.

THIS IS THE 56th YEAR OF THE ALPHA NURSERY. We have grown millions of trees and plants during this time and have gained much actual experience as to the GROWING, CARE AND HABITS OF EVERGREENS, TREES, ROSES and PLANTS suitable to our climate.

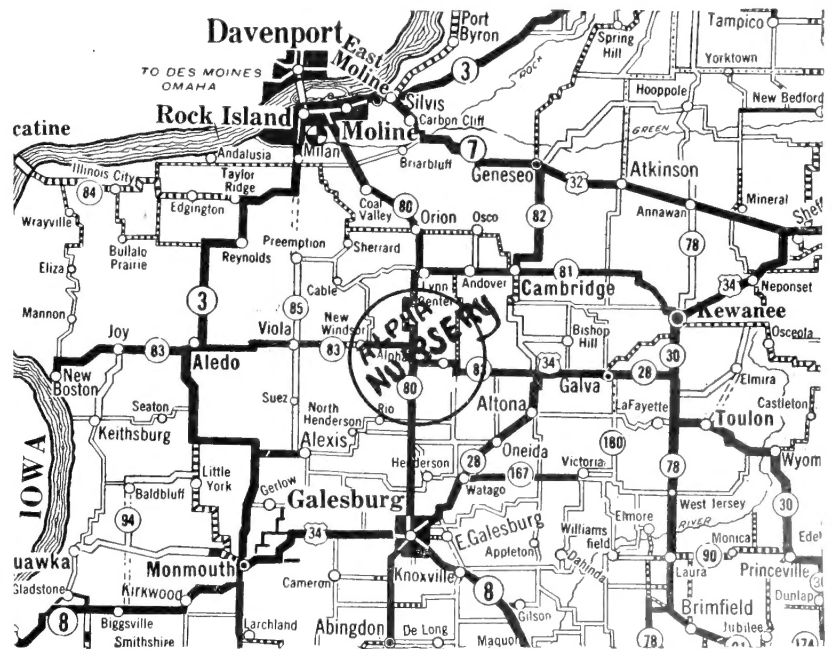

This long experience gives assurance of better trees and plants, as most all our stock is grown in our fields here at ALPHA, ILLINOIS.

This nursery is now in the hands of the second and third generations of WIRTS growing quality nursery stock.

Fair dealings, and honest values have built a reputation for this firm which stands the acid test of time.

EVERBLOOMING ROSES

10
for
\$11.00

2 Year, No. 1 Plants.....\$1.25 each
3 plants for\$ 3.50
6 plants for\$ 6.90
10 plants for\$11.00

These roses are all strong field-grown plants—No. 1 grade, 2 years old. They are northern grown, therefore will stand our climate better than roses from the south. We have added several new varieties to our list, and these varieties were all grown here at the nursery in our trial grounds and selected as among the best.

Always ask for our free Rose Instruction Sheet

ETOIL DE HOLLANDE—Velvet crimson maroon. Large very double—vigorous grower.

GRUSS an TEPLITZ (Crimson)—An extremely useful and dependable variety, succeeding well all over the United States. A profusion of beautiful, clear, crimson scarlet fragrant flowers, borne from June until frost. A vigorous and shapely plant.

PINK RADIANCE (Silvery Pink)—Vigorous upright bushy plants bear a continuous supply of very large, light silvery pink to salmon pink flowers on long, strong stems.

RED RADIANCE (Deep Red)—Vigorous, upright bushy plant, bearing a continuous supply of very large, beautiful deep red globular flowers.

PRES. HOOVER (Creamy Yellow with Pink and Flame tints)—Long pointed buds. Very heavy bloomer. This was one of our best growers the past summer.

GOLDEN RAPTURE—Rich yellow, fully double, long lasting, beautifully formed buds. Long stems. Vigorous grower.

BRIARCLIFF—Handsome flowers of silvery pink. Good bloomer.

K. A. VICTORIA—Snowy white, fragrant. One of the best white teas.

CHRISTOPHER STONE—Scarlet red with gold stamens showing as the flower opens. Erect healthy plant, and dependable.

POINSETTIA—Rich, dazzling scarlet, semi double with strong tea fragrance. Blooms freely; medium tall.

GLORIANA—A rose retaining its remarkable yellow color in the hottest weather, deepening to a two-tone color when flower is full open. This was one of our best bloomers last summer.

TREASURE ISLAND—Flaming copper pink, inside petals light salmon orange at the base, buds long pointed; flowers large, fragrant. One of our best two-tone varieties.

FRAU KARL DURSCHKI—Hybrid perpetual. Pure white. Grows about 5 ft. tall. An old time but still about the best white rose in existence.

FLORIBUNDA ROSES

The Floribunda group of Roses represents a new class of Roses, especially bred for hardiness, ease of culture and mass color effects. They are disease resistant, bloom continuously in large clusters. These roses only grow to a medium height, about two to three feet when matured. They are a very hardy, heavy blooming cluster type group.

2 year, No. 1 plants, \$1.25 each

CAMEO—Shell pink and salmon with glow of gold.

IDEAL—Dark scarlet; heavy bloomer; compact bunches.

ELLEN POULSEN—Double, bright rose pink, fragrant.

Primrose Yellow

Climbing American Beauty

2 year CLIMBING ROSES \$1.00

3 plants, \$2.85

PRIMROSE (Yellow)—Hardy double. One of the few good yellow climbers.

CLIMBING AMERICAN BEAUTY—Flowers rich red to crimson, very large; excellent for cutting.

DR. VAN FLEET—Very large double pink, on single stems; very fine for cut flowers.

PAUL'S SCARLET (Orange Scarlet)—The popular new shade. A vigorous climber on single stems. Our best climber.

FLASH—Pat. No. 396. Climber—Glowing vivid orange scarlet center with golden anthers. Blooms early in June and continues for weeks. 2 yr. No. 1 plants, \$1.25 each.

ROSE GROOTENDORST

(For Hedges)

The freest blooming variety in the Eskimo Beauty family. It is a strong grower, reaching a height of 4 to 5 feet. Blooms in clusters all season long. The individual flower resembles a small red carnation. An excellent plant for shrubbery planting and for rose hedges.

2 Year Plants, 95 cents each 5 or more 80 cents each

CHOICE DAHLIAS

GALLANT FOX—Velvet Red, very large. Good bloomer.

JERSEY BEAUTY—Fine Pink, very large. Good bloomer.

MRS. G. LEBOUTILLER—Rich Velvet Carmine. Giant flowers.

RED JERSEY BEAUTY—Bright Red. Large, fine bloomer.

WHITE KING—The leading Pure White.

YELLOW COLOSSAL—Giant flower, Lemon Yellow.

50 cents each 6 for \$2.75 (one of each)

Gloriana

EXTRA SELECT CHOICE PATENTED ROSES

The following roses are all patented varieties and are some of the finest roses in the U. S. All are strong 2 yr., No. 1 plants. Prices are list with each plant.

CRIMSON GLORY—Pat. No. 38. Long pointed bud, upright stems. Color, deep crimson, perfect form, large size and fragrant. 2 yr., No. 1 plants, \$1.50 each.

DOUGLAS McARTHUR—Pat. No. 581. Buds large, long pointed; lower, large and double, full high center and lasting. Delft rose color, slightly bronze at base. Heavy bloomer. 2 yr., No. 1 plants, \$1.50 each.

COUNTESS VANDAL—Pat. No. 38. Color combination can hardly be described. Pink, copper, gold and salmon. Long pointed buds on strong upright stems. Fine bloomer. 2 yr., No. 1 plants, \$1.50 each.

MARANDY—Pat. No. 632. A first place winner in 1945. Rich dark red with black shadings open to chrysanthemum red. A strong, free branching plant producing long pointed buds. The flower of 50 petals displays new beauties of form, and is long lasting. Very fragrant. One of the best. 2 yr., No. 1 plants, \$2.00 each.

HEART'S DESIRE—Pat. No. 501. Pure, even shade of luminous red, without any shadings. It is sun proof even in the hottest weather. Highly fragrant; plant very vigorous in growth. Prolific bloomer with buds of superb form, and open blooms holding their shape until last petal drops. 2 yr. No. 1. plants, \$1.50 each.

PEACE—Pat. No. 591. Ovoid buds and golden yellow etched with pink, as they open color changes from canary yellow to pale golden to cream. Petals edged with apple blossom pink. Many flowers open to five inches. 2 yr., No. 1 plants, \$2.50 each.

PLANT ROSES EARLY

Roses planted during the month of April do much better, and should bloom within 60 days from time of planting.

How To Grow Roses

Roses need plenty of sun and good rich soil. We have found that they do better if planted in beds. The rose bed should be top dressed with 2 to 3 inches of cattle or sheep manure, and add a cup full of bone meal to each plant, then spade under the whole works to a depth of 10 to 12 inches, then set the roses. Plant 12 to 18 inches apart and 3 to 5 inches deeper than they grew in the nursery.

Keep the rose bed well cultivated. Also keep all the old bloom picked off.

Late in the fall after the leaves are off, the EVERBLOOMING ROSES (only), should be cut back to within 6 to 8 inches of the ground and covered with soil. Mound the soil up as high as possible. In the early spring remove the mound of soil and give the bed a good top dressing of manure.

Roses should be sprayed often and regularly every 10 days. Use Wettable Sulphur. Can be applied dry in dust form or can be mixed with water and used as a spray. Black Leaf 40 can be added when needed to kill aphids. Complete directions are on each package.

SMALL FRUITS

PLANTED THIS SPRING WILL BEAR NEXT YEAR

ALL SMALL FRUIT ON THIS PAGE CAN BE SHIPPED BY PARCEL POST

For Home — STRAWBERRIES — For Market

Strawberry Plants will be very scarce this year. Orders should be placed early. Planting season April 1 to May 15. We do not like to furnish plants after May 15. Fall planting of strawberries is very uncertain, and we do not advise it.

SENATOR DUNLAP—This is one of the best varieties grown. It bears well in this locality—producing big crops. Good grower—makes good heavy rows. Berries large size—good rich red color.

25 plants, \$1.00 50 plants, \$1.50
100 plants, \$2.50

GRAND CHAMPION—A new strawberry for this locality which promises to be a great favorite. Grand Champion is enormous cropper; ripens with the Dunlap but continues long after Dunlap is gone. It bears over 40 days. The tall heavy foliage protects the blossoms from early frosts. Fruit is good rich red, solid, holds its shape, does not mush up, coreless—for canning, quick freeze. Grand Champion is in a class by itself. Our plants are strong and husky, having been grown under irrigation the past summer. Try **GRAND CHAMPION**.

25 plants, \$1.15 100 plants, \$3.00
50 plants, \$2.00 200 plants, \$5.00

EARLY PREMIER—Finest and earliest. Heavy cropper.

25 plants, \$1.00 50 plants, \$1.50 100 plants, \$2.50

Strawberry Plants should be set 18 inches apart in the row and the rows 4 feet apart. Set the plants straight down. Do not try to hold the plants after receiving—set them out at once. Strawberry plants will not keep long after dug. They will dry out or rot if too wet.

Dunlap

Mastodon

Everbearing Strawberry

MASTODON—The elephant of strawberries, and bears lots of big berries from summer until frost. Plants set in April had ripe berries July 11th, and the first week in August 160 quarts every five days per acre, and in September 576 quarts per acre every five days. The late berries sure bring the price. This is the newest and best everbearer on the market today. Try a few of the plants. Supply limited. Order Early.

25 plants, \$2.00 50 plants, \$3.25
100 plants, \$6.00

Postage on Strawberries—10c on 25; 18c on 50; 25c on 100

Washington Asparagus

ASPARAGUS

2 Year Roots

NEW PARADISE—This is a new variety of Asparagus and rated as one of the best. A tremendous grower, yielding two or three times as much as other kinds. Exceptionally large, of finest flavor and rust proof. Produces big, tender, delicious tips for many weeks.

\$1.00 for 12; \$1.50 for 25; \$2.50 for 50;
\$4.50 for 100

MARY WASHINGTON—One of the best old stand-by varieties; makes a heavy growth, large, tender tips; can be cut early and runs a long season.

75c per 12; \$1.25 per 25; \$2.25 per 50; 4.50 per 100
Postage—10c for 12; 15c for 25; 25c for 50

The Alpha Nursery has been growing fine nursery stock for 56 years, and we are proud of our record. The year 1947 finds us still living up to that enviable record. It is safe to order your wants by parcel post.

RHUBARB

2 Year Size

NEW STRAWBERRY—An improved old time variety of Pie Plant, stock of medium size, very bright red, juicy, and of fine quality. 2 for 25c; 3 yr., 25c each.

CANADA RED—This is a new Red Rhubarb. It is grown from divisions, not from seed. It takes three years to develop a saleable plant. Here is something new and special in Rhubarb. 75c each.

Postage—10c for 1; 15c for 2 or 3

BLACKBERRIES

ALFRED—Very productive and hardy; extra fine quality; sweet flavor, without core; fruit very large, jet black. We think this is the best of blackberries.

12 plants, \$1.80 25 plants, \$3.25 50 plants, \$6.00

Postage—10c for 12; 15c for 25

BOYSENBERRIES

THORNLESS BOYSENBERRY—Canes smooth as velvet—early ripening—heavy bearer of large, black berries. 25c each; 3 plants, 70c; 6 for \$1.25; 12 for \$2.00.

HORSERADISH

Whole Roots—3 for 50 cents

The snappy relish which is so good in the spring.

SAGE

BROADLEAF MAMMOTH SAGE—Plants of strong growth, strong flavor. 2 Yr. Plants, 25c each; 3 for 70c; 6 for \$1.25

GOOSEBERRIES

2 Year Plants

65 cents each 3 for \$1.65

JOSSLYN—A large green fruiting kind; an immense cropper, always in demand.

CHAMPION—Fruit medium size, round. Bush very hardy and very productive; free from mildew. We think this is the best for general planting.

Postage—10c for 1; 18c for 3

Champion Gooseberry

RASPBERRIES

Raspberries should be planted early—last of March and to May 1st.

Raspberry plants are very short this year. Better get your order in early, as it is doubtful if we can fill half our orders and first in first served.

BLACK RASPBERRIES

CUMBERLAND—One of the largest of the blacks, very firm and of great productiveness, entitling it to first consideration. Good strong grower. Cumberland has been one of the leading varieties for years; we have tried many varieties but always go back to Cumberland.

Strong 1 Year Plants—12 plants, \$1.80; 25 plants, \$3.50; 50 plants, \$6.50; 100 plants, \$12.00
Strong 2 year plants, 20c each. Will bear this year.

RED RASPBERRIES

LATHAM—For general planting in all sections, LATHAM is one of the best because this hardy, vigorous grower can be depended upon. The fruit is large, solid, does not mush or break apart. This variety sprouts, as all reds do.

Strong 2 Year Plants—12 plants, \$2.10; 25 plants, \$4.00; 50 plants, \$7.50; 100 plants, \$14.00

RED RASPBERRIES

INDIAN SUMMER—This is one of the newer varieties, bears large heavy crops in early July and will bear a large quantity of berries in the fall on the new canes that come up that year. Not classed as an everbearer. Fruit large and very solid, thimble shaped, rich red. Canes are strong and heavy. This variety sprouts.

Strong 2 Year Plants—12 plants, \$2.40; 25 plants, \$4.50; 50 plants, \$8.00; 100 plants, \$15.00

PURPLE RASPBERRIES

SODUS—Rich, delicious, heavy bearer. Berries large wine color, just the thing for your freezer. The plant is a strong grower. Does not sprout.

6 plants, \$1.25 12 plants, \$2.40 25 plants, \$4.50 50 plants, \$8.00

NEW MORRISON BLACK RASPBERRIES

6 plants, \$1.25 12 plants, \$2.40 25 plants, \$4.50

This is a new Raspberry of great promise, being very free from disease. Fruit large and solid. Ripens a little earlier than Cumberland.

CURRENTS

2 Year—60 cents each; 3 for \$1.65

RED CROSS—Large berries, bright red, bunches very compact.

RED LAKE—Large berries, bunches loose, heavy bearer, bright red.

CONCORD SEEDLESS GRAPE

2 year plants, 75c each

This is the New Seedless Grape. Fruit and flower like the regular Concord, but has no seeds. Supply very limited.

2 year GRAPE VINES

CONCORD—Black, the most popular grape in America; bunches and berries large, healthy and productive. 35c each; 3 for \$1.00.

MOORE'S EARLY—Black, bunches medium size and very compact; berries large and of excellent quality; ripens ten days before Concord which makes it very desirable for market; very hardy, well suited for the North; one of the best. 40 cents each; 3 for \$1.15.

NIAGARA—A fine white grape. Produces large, compact, perfect bunches. Vine a strong, hardy grower. 40c each; 3 for \$1.15.

BRIGHTON—Bunches of good size, fruit when ripe is bronze color with a sweet rich flavor; fine grape. 40c each; 3 for \$1.15.

FREDONIA—The earliest black grape. Large berries, delicious flavor, vigorous and very hardy. 40c each; 3 for \$1.15.

YELLOW TRANSPARENT, JONATHAN,
RED DELICIOUS GRIMES GOLDEN
We have above four kinds in this size

SUMMER VARIETIES

EARLY HARVEST—Medium, to large, roundish, bright straw color; flesh white, good quality. July.

RED JUNE—Medium, oblong, hardy, and productive; deep red color; flesh white, tender, rich and sub-acid. August.

RED ASTRACHAN—An old time apple, medium size, skin green yellow with red stripes. A good summer cooker.

YELLOW TRANSPARENT—Medium, yellow, good quality, productive, early bearer. July.

AUTUMN VARIETIES

DUCHESS OF OLDENBURG—Large size, roundish, streaked with red and yellow; flesh white, juicy, acid. September.

FAMUESE (Snow)—Medium, deep crimson, flesh snowy white, tender. Tree slow crooked grower. October and November.

WEALTHY—Large, roundish, smooth, nearly covered with dark red; flesh white, fine, juicy, sub-acid; quality very good; good grower and productive. October.

ANOKA—A really good apple. Bears in two and three years. Fruit large and very much like Wealthy, ripening in late September to October. Very hardy and vigorous grower, very productive.

McINTOSH RED—Beautiful red apple, snow white flesh. Fine quality. Very late fall apple.

WINTER VARIETIES

ALL RED DELICIOUS—Has the same size, flavor and shape as the common Delicious, but this variety is a deep bright red, which completely covers the apple. Flesh is very white, crisp and very juicy. Heavy bearer.

YELLOW DELICIOUS—Fruit golden yellow; flesh pure white; very crisp and juicy; very fine quality. Tree bears young with enormous crops. The old fruit growers claim this is the peak in apples.

JONATHAN—Medium, nearly covered with brilliant stripes of lively red; very showy, juicy, excellent; trees spreading and slender; bears early. November to February.

GRIMES GOLDEN—Medium golden yellow, with white dots, crisp, tender and juicy, excellent; tree vigorous, hardy and productive. November to January.

STAYMAN'S WINESAP—Fruit large, striped, nearly covered with red; flesh greenish yellow, very juicy and aromatic; very good; a strong, spreading grower; a good, early bearer; the best of our late winter apples. January to May.

TURLEY WINESAP—A large dark red apple of excellent quality. Tree is a vigorous grower and very productive; excellent eating apple and late keeper—January to May.

NORTHERN SPY—Large red apple; good grower, making a nice tree. Late keeper.

ROME BEAUTY (Red)—Very large handsome apple. Dark red color; will keep until Spring. Good for cooking and eating.

2 year--4 ft. CRAB APPLES \$2.00 each

RED SIBERIAN—Grows in clusters and the tree is simply loaded when fruiting. Bears very young; fruits in September. Use these for jelly and pickles. This is the little red one.

WHITNEY—Fruit very large, yellow striped with red; flesh yellow, very juicy and fine grained, flavor rich and almost sweet. August.

PEACH TREES

2 Yr. Trees—4 to 5 feet, \$1.50 each.

5 or more \$1.40 each

Peaches

Peach Trees can be sent by Parcel Post. The postage is 15c for 1 tree and 5c for each additional tree.

RED HAVEN—A new early peach—large, beautiful red in color; rich yellow flesh; freestone. Hardy, productive.

HALE HAVEN—Freestone, large size, rich yellow flesh, skin reddish blush. Ripens in September.

ROCHESTER—Medium size, round, almost red. Yellow flesh, high flavor. Very productive. August.

ELBERTA—The great American market peach; produces big, profitable crops. Fruit large, bright, attractive, yellow with crimson shading; flesh firm and of good quality. Will ripen perfectly when picked green. One of the best for home or market use. Free stone. September.

CHAMPION—Fruit large, delicious, sweet, juicy; skin creamy white, with red cheek; handsome, hardy and productive, and a good shipper; adhering slightly to the stone. White flesh. August 15th.

SOUTH HAVEN—One of the newer peaches grown much in Michigan. It stands our cold winters better than any of the other varieties. Flesh golden yellow; rich and sweet; firm, excellent shipper and keeper; freestone; ripens 2 to 3 weeks ahead of the Elberta. Tree is hardy, healthy and is a vigorous grower and heavy producer.

GOLDEN JUBILEE—Large, yellow, freestone, fine flavored. Ripens about Sept. 1st.

CHERRY TREES

3 Yr. Trees—5-6 feet heavy.....\$2.00 each. 5 or more \$1.90 each

2 Yr. Trees—4-5 feet\$1.50 each. 5 or more \$1.40 each

EARLY RICHMOND—This is the early popular cherry that is planted so much. Medium red, hardy, immensely productive, ripens the last of June.

MONTMORENCY—The large, late, dark red cherry. This cherry has become very popular on account of size. It is very meaty—ripens about 10 days later than the Richmond.

SWEET CHERRIES

4 to 6 feet, \$3.00 each

(By Express or Truck Only)

BING—Black—very large and meaty.

SPANISH—Yellow—large and good flavor.

Sweet Cherries need well drained soil, heavy in limestone.

HARDY NORTHERN APRICOTS

The following varieties are Northern strains from South Dakota and Idaho. The trees are very hardy here.

3½ to 5 ft. trees, \$1.50 each

COLBERTS—Large size, egg shaped, gold yellow.

SANSIN—Medium size, golden yellow.

PEACH COT—Round, large size, yellow with red blush; no fuzz. Tree fast grower.

SUPERB—Small, round, bright yellow. Heavy bearer.

PEAR TREES

3 Yr. Trees

5-6 ft., \$2.00 each

5 or more trees, \$1.90 each

Not Mailable

LINCOLN—Medium size, clear yellow flushed with red. Very hardy and very productive. Either canned or eaten fresh its flavor is delicious. Tree bears very young, and is a sure bearer from year to year.

KEIFFER—The best late pear—does not ripen on the tree. Pick them before frost and lay them away. Heavy and sure bearer; good for canning.

SECKLE—The small, sweet pear. Surely fine to eat from the tree. The tree is low grower, but very hardy. September.

DOUGLAS—Here is a BLIGHT-FREE PEAR—in which is combined the best qualities and habits of all leading varieties—with the drawbacks of none. It bears even more profusely than the Keiffer. It begins to bear at an earlier age than any other pear on earth. It ranks with the best in shape, size and coloring.

CLAPPS FAVORITE—Fine late summer Pear; fine grained, very much like Bartlett, but much better in our soil.

DUCHESS—Largest Pear grown. Fruit slightly sweet. Fine eating and canning pear.

Pears

HARDY APRICOTS

3 Year Trees—5 to 6 feet, \$2.50 each

(Not Mailable)

MOOR-PARK—Large size, golden yellow, egg shaped. This is the kind you buy in boxes at the store.

SUPERB—Medium size, round, heavy producer, good quality.

ROYAL—Large size, golden yellow. Bears early.

PLUM TREES

2 Yr. Trees—4 to 6 feet, \$2.00 each

(Not Mailable)

GRAND DUKE—Very large; very dark red; very good flavor.

MONARCH—Large blue plum. Yellow flesh.

OPATA—Small fruit. Very heavy bearer; purplish-red skin, green flesh. Bears very young.

UNDERWOOD—Large size, skin greenish yellow with red, flesh golden yellow; juicy and sweet. Very hardy and productive bearer. One of the best.

GREEN GAGE—Large, skin greenish, good flavor.

KAGA—Large round red plum. Heavy bearer; good.

DAMSON—The small blue plum; heavy bearer.

Hardy Medium-Growing

75c each 3 for \$1.80

These shrubs are all of medium height. They grow from 4 to 6 feet and are suitable for foundation and shrubbery borders. The plants are all strong 2 year old.

GOLDEN BELL (Forsythia)—This shrub has yellow bell shaped flowers early in the spring before the leaves appear.

SPIREA VAN HOUTEI—This is the much planted Bridal Wreath. White flowers in early June.

SYRINGA LEMONINE—This is a medium growing Syringa, white flowers in May. A good thick bushy shrub.

Althea

Spirea Van Houtei

ALTHEA

ROSE OF SHARON

2 to 3 ft., 2 yr., 75c each
Single Blue Double White
Double Pink Single Red

We have the above colors in this upright shrub. Blooms in August-September. Flowers resemble small hollyhocks.

Hardy Tall-Growing

75c each 3 for \$1.80

These shrubs are all tall or high growing. They grow from 6 to 8 feet tall and are used for tall screens or to enclose yards, and corner planting of foundation. They are all strong 2 year old plants.

BEAUTY BUSH—This is a new shrub, very hardy. The blooms are pinkish white and appear in June. This shrub attracted wide attention last summer.

SNOWBALL—This is an old favorite of the tall growing shrubs; large round white flowers in late May. Grows 6 to 8 feet tall.

CRANBERRY Highbush—This shrub has heavy large foliage; white flowers in large heads, followed by bright red berries in the fall.

LANTANA—Beautiful wrinkle Lantana like leaves, white flowers in May and June; the berries range in color from crimson to black. Good for shady places.

TAMARIX—This is the tall shrub with feathery foliage and long sprays of pink blooms.

GOLDEN ELDER—Golden yellow foliage. White blooms followed by black berries. A big grower.

Tamarix

Cranberry Highbush

FRENCH LILAC

2 to 3 foot Plants
\$1.50 each

The following are some of the best varieties of the French Lilacs. They are more dwarf than the common varieties; the blooms are larger and of better color, they also bloom much younger. These Lilacs are grafted on Privet or Ash and do not sprout. They should be planted 3 or 4 inches deeper than they grew in the Nursery. Every home should have a few of these Lilacs.

JEANNE d'ARC—Double, white.

CHARLES X—Single Reddish Purple.

LUDWIG SPAETH—Single, deep purple.

COMMON LILAC

LILAC (Common Purple)—Grows 6 to 8 feet. Lavender purple flowers. This is the old fashioned purple lilac with the sweet scented flowers in May. 2 to 3 ft. plants, 75 cents each.

LATE BLOOMING LILAC

VILLOSA LILAC—This is a late blooming Lilac; blooms long after all other Lilacs are gone. Bushy, compact grower. Large attractive leaves, pale pink flowers. 2 to 3 ft. plants, \$1.00 each.

PERSIAN LILAC

3 to 4 feet, \$1.00 each 12 to 18 inches, 60 cents each

PERSIAN LILAC—Upright vigorous grower, reddish purple flowers in April and May. This Lilac blooms very young, and is very hardy; stands dry weather; much used for hedges or tall screens. 3 to 4 ft. plants, \$1.00 each; 12 to 18 inch plants, 60 cents each.

HYDRANGEAS

HYDRANGEA P. G. (Pink)—Large cone shaped flowers in the fall, turning pink with the frost. Can be cut for winter.

3 to 3½ ft. plants, \$1.25
18 to 24 inch plants, 80 cents each

HILLS SNOW (Hydrangea)—The summer-blooming kind. Round white flowers like snowballs. Grows about 4 feet.

2 to 3 ft. plants, \$1.00 each

Hydrangea—P. G.

SYRINGA

SYRINGA (Mock Orange)

This is the sweet scented syringa used for hedges and tall screens. Fast upright grower. Can be trimmed to almost any height. Will grow 8 to 10 feet tall. An excellent shrub to enclose your back yard.

3 year, 3 to 4 ft. plants, \$1.00 each 3 or more, 90 cents each
2 years, 18 to 24 inch plants, 60 cents each 5 or more, 50 cents each

SYRINGA (Everblooming)

This is a semi-double, large white flower. Blooms very heavy in June, then lighter during the summer. Better as a specimen plant, as it is not a thick and heavy grower.

3 to 4 ft. plants, \$1.00

HONEYSUCKLE (Bush)

3 year, 3 to 4 ft. plants, \$1.00 each 3 or more, 90 cents each
2 year, 18 to 24 inch plants, 60 cents each 5 or more, 50 cents each

This shrub is covered with light red flowers in June, followed by bright red berries, which hang on all summer. A fine shrub for tall hedges or screens. Can be trimmed to any height. Should be trimmed as it grows, which will make it more compact.

EUONYMUS

EUONYMUS (Alatus)

One of the best hardy Euonymus. A compact, slow growing bush with corky winged bark. Foliage turns brilliant red with first frost. Bright red berries well into winter.

2 to 3 ft. plants, \$1.00 each

EUONYMUS (Wahoo)

A hardy native shrub, producing a wealth of scarlet berries. Foliage brilliant in the fall.

2 to 3 ft. plants, \$1.00 each

PINK SPIREA

15 to 18 in., 2 yr. plants, 65 cents each 5 or more, 50 cents each

SPIREA FROBELL—This is a splendid low growing shrub, growing about 3 feet. In June it is covered with rosy pink flat blooms. In the fall the foliage turns a beautiful bronzy red, which hangs on well into early winter. Very hardy; good for low hedges or borders.

FLOWERING QUINCE

18 to 24 inch plants, 65 cents each

This is the shrub with rosy red blooms along the stems before the leaves appear in the Spring. Attractive waxy like foliage. In the fall it often has golden yellow fruit. Makes a good hedge—grows 3 to 4 feet, but can be trimmed to any lower height. Very hardy.

OPEN SUNDAYS

PLANT EVERGREENS

For All Year Beauty

The following Evergreens are all balled in burlap. It is best that you call at our Nursery, select your Evergreens, and take them with you, as these sizes are hard to ship. However, we can ship them by Dohrn or Burlington Truck. These trees have to be boxed or packed separately in baskets.

Pfitzer Juniper

LOW OR SPREADING TYPE EVERGREENS

PFITZER JUNIPER — This is one of the most popular spreading type evergreens; very hardy, will grow in almost any soil and in any condition. Bluish-green in color, soft heavy foliage. Grows 3 to 4 ft. tall and with a 5 to 6 ft. spread.

12-15 in.	\$2.50
15-18 in.	3.50
18-24 in.	5.00
2-3 ft.	8.00

ANDORA JUNIPER—A most satisfactory low spreading type. In fall it turns silver with bronzy-red undercast, changing to bright green during summer. Grows 20 in. tall and 4 to 5 ft. spread.

12-18 in.	\$2.50
-----------	--------

BLUE JUNIPER — Pathfinder—An upright Blue Juniper, grows 6 to 8 feet tall.

2-3 ft. Trees	\$4.00
3-4 ft. Trees	6.50

GOLDEN JUNIPER—One of the new evergreens with golden yellow colored foliage, changing to an old gold color in fall.

12-18 in.	\$2.50
-----------	--------

YEW (Spreading)—Handsome, very dark green shiny foliage. This variety becomes more in demand every year. Spreading in growth but will grow 4 to 5 ft. tall; can very easily be clipped to any shape.

18 to 20 inch Trees	\$5.00 each
---------------------	-------------

DOUGLAS FIR—An upright tree with deep green lustrous foliage. Withstands drought, and immuned from Red Spider; fast growing.

2 to 3 ft. Trees	\$5.00
------------------	--------

CONCOLOR FIR—This fir is often taken for Blue Spruce as many of the trees have bluish foliage. Long graceful needles, very thick on the branches; upright in growth. Rapid in growth, very hardy. Makes large tree, so give plenty of room.

4 to 5 ft. Trees	\$8.00 to \$10.00
------------------	-------------------

AUSTRIAN PINE—This is the tree with long needles often 3 to 5 inches long; tight, compact grower; stands dry weather and poor soil, and still a fast grower.

12 to 15 in.—bare roots	each \$1.00
-------------------------	-------------

EVERGREENS ARE NOT HARD TO GROW. All they need is a little reasonable care—and most of this care is water and a little cultivation. Water is very important, as 70 per cent of evergreens that die is from lack of WATER. One good watering, once a week, is much better than watering every day, and when you water put 10 to 15 gallons of water to each tree—but don't wet the tops.

ALL OUR EVERGREENS ARE GROWN AT THE NURSERY IN ALPHA. They are all fresh dug from our fields. This is very important, as evergreens dry out fast, and if they are out of the ground very long, they will be a sure loss.

IT WILL PAY YOU TO BUY EVERGREENS FROM THE GROWER.

TALL PYRAMIDAL AND UPRIGHT EVERGREENS

VIRGINIA JUNIPER—This is one of the oldest and most popular evergreens. It is well adapted to our climate and will stand the smoke and gas of the city. A fast grower. With a little trimming it makes a perfect pyramidal tree.

2-3 ft.	3.50
4-4½ ft.	5.00
6-8 ft.	10.00
3-3½ ft.—Sheared	5.00
3½-4½ ft.—Sheared	7.50

COLORADO JUNIPER—This is a very refined upright growing evergreen, with fine bluish-green foliage. Stands lots of dry hot weather.

3-4 ft.	\$5.00
5-5½ ft.	6.50
6-7 ft.	8.00
7-8 ft.	14.00

Virginia Juniper

CANNARTI JUNIPER—An upright grower, with very dark green foliage; holds its color all year. Has blue berries, which hang on all winter. Grows 6 to 8 feet.

4-5 ft.	7.00
---------	------

CHINESE JUNIPER—A fine upright evergreen with blue-green foliage—a very hardy fast-growing tree, which stands our hot summers—out of the Pfitzer family.

3-4 ft.	\$5.00
4-5 ft.	7.50

KETTELER'S JUNIPER—A fine upright open growing evergreen, with dark green, heavy foliage. It is well adapted for our climate—does not burn out.

3-4 ft.	\$6.50
---------	--------

MASCUA JUNIPER—An upright pyramidal type tree with dark foliage, interwoven with silver foliage. This tree has two distinct types of foliage. A very hardy evergreen. Grows 6 to 8 ft.

3-4 ft.	\$7.50
---------	--------

Colorado Juniper

Our Evergreens are all Fresh Dug from the field where they are grown. We grow all our Evergreens in our Nursery at Alpha.

ARBOR VITEA—(PYRAMIDAL)—A pyramidal tree with wide base, used for hedges or screens. Grows 10 to 12 feet, can be clipped to any shape or size.

2 to 2½ ft.	\$2.50 each
-------------	-------------

SPRUCE (BLACK HILL)—A tree of fine form; a broad compact pyramid, densely covered with short stiff needles of dark green. Can be used in many places, from windbreaks to foundation planting, as this tree can be clipped to any size.

8 to 12 in.—bare roots	\$.50 each
12 to 18 in.—balled	2.00 each
18 to 24 in.—balled	3.50 each
2 to 3 ft.—balled	4.00 each
3 to 4 ft.—balled	6.50 each
4 to 5 ft.—balled	8.50 each

COLORADO BLUE SPRUCE — This is the tree with the silvery-blue foliage; branches in even layers from top to bottom.

2 to 3 ft. Trees	\$9.00 to \$12.00 each
------------------	------------------------

MOREHEIM BLUE SPRUCE — This is the true grafted blue spruce; every tree blue and will stay blue as long as the tree lives. Supply very limited.

15 to 18 in. Trees	\$10.00 each
18 to 24 in. Trees	15.00 each

SHADE TREES

Air Condition Your Home!

Shade Trees Not Mailable

- SCHWEDLER'S MAPLE** (Red Leaf Maple)—This is the Maple with red foliage in early spring, and during the summer the leaves are bronzy red. A little more rapid growth than the Hard Maple. 8 to 10 ft., \$6.50 each.
- HARD MAPLE** (Sugar Maple)—This is the old-time Hard Maple. Slow growing but long lasting. 8 to 10 ft. trees, \$5.00 each.
- NORWAY MAPLE**—Very much like the Hard Maple, but grows a little faster. Foliage golden yellow in fall. 8 to 10 ft. trees, \$6.00 each.
- SILVER MAPLE**—Fast growing Maple. Will last 75 to 100 years. A good, fast growing shade tree. 8 to 10 ft. trees, \$4.00 each.
- MOLINE ELM**—A tall upright tree with large leaves. Grows much like the tall, slim poplars. This tree will out-live three plantings of poplars. Medium fast growing. 6 to 8 ft. trees, \$2.75. 8 to 10 ft. trees, \$5.00.
- SYCAMORE**—Large, fast growing tree, with very large leaves; bark somewhat whitish. 6 to 8 ft. trees, \$2.75 each.
- HACKBERRY**—A medium fast growing tree; foliage much like the elm. Makes a round headed tree; very tough; will not break up with wind. 8 to 10 ft. trees, \$4.00 each.
- KENTUCKY COFFEE TREE**—Light blue-green fern-like foliage. Very picturesque even in winter. White flowers in June. Grows 30 to 40 feet. 6 to 8 ft. trees, \$4.00 each.
- WHITE BIRCH**—This is the tree with the white bark, known as Canoe Birch or Paper White Birch. 5 to 6 ft. trees, \$2.00 each.
- LOCUST THORNLESS**—Fragrant white flowers in May. Long lived hardy tree; no thorns. Not affected by borers or drowth. 8 to 10 ft. trees, \$4.00 each.
- PIN OAK**—Rapid growth. Leaves deeply cut; colors beautifully in fall. 4 to 5 ft. trees, \$1.50 each. 8 to 10 ft. trees, \$5.00 each.
- CHINESE ELM**—One of the fastest growing trees we have. Lives 20 to 25 years. One of the best trees for quick shade. 5 to 6 ft. trees, \$1.00 each. 6 to 8 ft. trees, \$2.50 each. 8 to 10 ft. trees, \$3.60 each.
- LOMBARDI POPLARS**—Tall, slim growing tree; very fast growing. Used for screens and lot line plantings. 3 to 4 ft. trees, 40 cents each. 5 to 6 ft. trees, 75 cents each. 8 to 10 ft. trees, \$1.50 each.

Wisconsin Willow

WILLOWS

WISCONSIN WEEPING WILLOW—

A graceful tree with branches weeping to the ground. Green bark; leaves silver under side. 4 to 5 ft. trees, 60 cents each. 6 to 8 ft. trees, \$2.00 each.

PUSSY WILLOW—A popular willow on account of catkins in March before the leaves appear. 4 to 5 ft. trees, 75 cents each. 6 to 8 ft. trees, \$1.50 each.

Come to the Nursery and select your own Shade Trees. You save money in this way; also you see just what you are buying.

VINES and CLEMATIS

Strong 2 Year Plants

75 cents each 3 for \$2.00 Postage 10 cents

- WISTERIA** (Purple)—One of the finest climbers, of rapid growth, and perfectly hardy, with long, pendulous clusters of bluish purple. Flowers in June. Grafted plants sure to bloom.
- ENGLEMAN'S IVY**—It is one of the finest ivies we have. The brilliant coloring of the leaves in autumn, together with perfect hardiness, makes it a valuable climber for covering brick or stone walls. Where hardiness is necessary, the Engleman will be found much superior to Boston ivy.
- BOSTON IVY**—This is one of the finest hardy climbers we have for covering walls, as it clings firmly to the smoothest surface, covering closely with overlapping foliage, giving appearance of shingles. The color is a fresh deep green in summer, changing to the brightest shades of crimson and yellow in autumn.
- HONEYSUCKLE** (Scarlet Trumpet)—One of the handsomest in cultivation; coral flowers; very vigorous and hardy; blooming all summer.
- BITTERSWEET**—A native vine that is especially ornamental in fall and winter, with brilliant orange and scarlet fruit.
- SILVER LACE VINE**—A strong vigorous vine attaining a height of over 25 feet, it has all summer and fall a great mass of foamy sprays of white flowers which turn rose colored as they begin to fade, and the combination of the white and rose make a very pretty picture.

Paniculata

GOLDEN FLAME (Honeysuckle)—New ever-blooming Honeysuckle vine, blooms from early summer until frost. Red flame outside, yellow inside.

Clematis

Postage 10c

I list here below two popular varieties of the large flowering Clematis and one of the small white flowering. Clematis need a little extra attention to get them started. Once started they grow for years.

JACKMANNI—The well-known purple flowering Clematis. Flowers 4 to 6 inches across. 2 year Pot Grown Plants, \$1.00 each.

MME. EDW. ANDRE—A robust plant blooming freely. Violet red flower 3 to 4 inches across. 2 year Pot Grown Plants, \$1.00 each.

PANICULATA—The small flowering sweet scented white clematis. One of the most vigorous and beautiful climbers. 3 year Field Grown Plants, 75c each.

The Spreading Growth of SHADE TREES will Create Much Comfort for Your Home. Your property will increase in value by the pleasant surroundings.

Lombardy Poplar

THE EVER POPULAR FLOWERING CRAB

In late years the Flowering Crab has become very popular. They are small growing trees, about 10 feet tall or can be trimmed when small into bush forms. We list several of the best varieties.

RED SILVER CRAB—Foliage somewhat cut leaved, with silver and red color; rich maroon red fruit. 4 to 5 ft. trees, \$1.75 each.

ELEY CRAB—Red foliage in spring. Single pink flowers followed by showy red fruit. 4 to 5 ft. trees, \$1.75.

HOPA CRAB—Upright tree with attractive foliage, covered with crimson buds, opening to rose colored flowers in April. Fruit red inside and out, hanging on until fall. 4 to 5 ft. trees, \$1.75 each.

ARNOLD CRAB—Pink flowers in long stalked clusters. Yellow waxy fruit in fall. 4 to 5 ft. trees, \$1.75 each.

RED LEAF PLUM—A new and popular tree. Foliage bright red in spring, reddish bronze all summer. A small beautiful tree. White flowers in May. 4 to 5 ft. trees, \$1.50 each.

MAY DAY TREE—Produces a wealth of large, clear white flowers in May, followed by edible fruit. A very pretty small tree. 3 to 4 ft. tree, \$1.50 each.

AMOO RIVER PRIVET

This is the hardy type of privet so much used for hedges. Has glossy green foliage which lances on very late in the fall. This variety of Privet can be trimmed at any time into any shape. Plant Amoor Privet no matter where you live, it will increase the value of your place.

BRIDAL WHEATH (Spirea Van Houttei)

Greatest of Spireas, one of the best of shrubs; complete fountain of pure white bloom in May and June. The foliage and bush shape is ornamental the year round. Fine for tall hedge or screen. Also much used for foundation planting.

Special—18-24 in. Plants, \$2.00 per 10
2-3 ft., 45c each; 10 for \$4.00 3-4 ft. 60c each 10 for \$5.00

JAPANESE BARBERRY

Finest of all the Barberries, grown in compact form, spiny stems, foliage fine and dense, changing to brilliant red in fall, the clusters of red berries hanging on all winter. Much used for hedge and borders. Considered by many to be the most valuable foreign shrub grown. This Barberry is recommended by the Government. It does not have the wheat rust.

Special—12-18 in. Plants, \$2.50 per 10 \$18.00 per 100

CHINESE ELM

The Chinese Elm is a very good fast growing tall hedge or screen plant. Very fast growing. Will stand hot weather. 2 to 3 ft. plants, \$1.00 for 10 plants; \$3.50 for 50; \$6.00 per 100.

PERSIAN LILAC

This is a fast, early blooming lilac, which is very good for hedges and screens. Can be trimmed any time and any height. 12-18 in. plants, 60c each; 3-4 ft., \$1.00.

W I R T ' S LAWN SEED

YOU ARE ALWAYS WELCOME AT OUR NURSERY

We are open Sundays for your convenience in March, April, and May, and September 15 to November 15, when salesmen will be on hand until 6 P. M.

During the summer months there will be no salesmen on Sundays, but you are welcome to come and see the flowers and shrubs growing.

Wirt's High Grade Lawn Grass Seed

WIRT'S VELVET LAWN GRASS—This is our own mixture and contains only the top grade seed—Kentucky Blue Grass, Redtop and White Dutch Clover.

90c per lb.; 5 lbs., \$4.30; 10 lbs. or more, 85c per lb.

WIRT'S SHADY LAWN GRASS—This seed is blended especially to build up a lawn where shade is to be considered. This seed is for sowing under trees and shady places where the ordinary seed does not succeed well.

1 lb. pkg., 90c 5 lb. pkg., \$4.25

KENTUCKY BLUE GRASS—Valuable for pepping up old lawns. Choice heavy seed.

1 lb. pkg., \$1.00 5 lb. pkg., \$4.90

FESCUE CHEWING—\$1.25 per lb.

This is the fine hair-like grass that comes up in many lawns. Will grow in poor acid soil where other grasses fail. Needs very little mowing.

ABOUT LAWN GRASS—No one kind of grass will make a lawn that will keep beautifully green throughout the season, but a mixture of several is essential. Our Velvet Lawn mixture is a splendid grass, giving quick and satisfying results. The shady lawn for under trees and shady spots. Our Grass Seed does not contain Timothy, but Fescue, Red Top and Bent. Our seed is fresh 1945 crop.

QUANTITY OF SEED TO USE—1 lb. to 300 square feet of lawn or double this amount if a quick lawn is wanted.

• Fertilizers • Wirt's High Grade Fertilizers

The use of fertilizer is a very important factor in the growing of all fruits, trees, vegetables, lawns and especially small fruits, as there is very little humus turned under to enrich the soil. Everything is taken out of the soil to produce growth. The three most important chemicals to produce growth and fruit are Nitrogen, Phosphorus and Potash. The Nitrogen produces top growth, Phosphorus helps set the fruit or seed, and Potash helps set root crops. But all three are necessary, and should be in balanced proportion. Nitrogen is the first that should be added. If Nitrogen is short, the other two chemicals will be almost useless, and too much Nitrogen will cause too heavy a growth, with very little set of fruit; therefore, Phosphorus and Potash are added to make the set. It is therefore better to use a balanced fertilizer, and use it in small quantities, starting early in spring and at intervals throughout the growing season—but not in the fall, as it causes late growth and this new growth will winter kill.

MANY FERTILIZERS HAVE BEEN OFF THE MARKET—OR VERY LIMITED—DURING THE WAR YEARS, BUT NOW MANY ARE BACK AGAIN. SO NOW IS THE TIME TO START BUILDING UP YOUR LAWNS AND GARDENS.

SHEEP MANURE—This is a natural fertilizer, odorless and free from weed seed—suitable for trees, grass, fruits, vegetables. Use as a top dressing on your garden and lawn in early spring. Use at rate of 100 lbs. to 1,000 square feet.

10 lb. bags, 65c; 25 lb. bags, \$1.25; 50 lb. bags, \$2.00; 100 lb. bags, \$3.20

MILORGANITE—A unique plant food, scientifically prepared; free from weed seed. Easy to apply without danger of burning. Excellent for lawn and garden use. Use 100 pounds for 50 x 100 feet.

25 lbs., \$1.25 50 lbs., \$2.00 100 lbs., \$3.50

ARMOUR'S SPECIAL GROWERS MIXTURE—A plant food which is quickly available. 4-12-8. Use 6 lbs. to 100 sq. ft., and work into the soil, or apply along the rows about 6 in. out, using 2 lbs. to 50 ft. row; for lawns, 100 lbs. for 50 x 100 ft.

10 lbs., 75c 25 lbs., \$1.25 50 lbs., \$2.50
100 lbs., \$4.00

SUPER - PHOSPHATE—20 percent available. Should be added where heavy applications of manures have been used.

50 lbs., \$1.75 100 lb. bags., \$2.75

VIGORO—The complete Plant Food, for lawns, trees, plants and Gardens.

5 lbs., 45c 10 lbs., 85c 25 lbs., \$1.50
50 lbs., \$2.50 100 lbs., \$4.00

Send for our Special Pamphlets on Fertilizers and Lawns.

SPRAY MATERIAL for Fruit Trees, Roses and Plants

OIL EMULSION (Dormant Spray)—For scale on Apple, Peach, Pear, also Peach Leaf Roller. Use before buds burst in spring. Mix 3 gal. to 100 gal. water. Price, \$1.00 per gal.

BLACK LEAF 40—For control of Aphids and other eating insects on Roses and tender plants. 1 oz. bottle, 35c. Not mailable.

ARSENATE OF LEAD—For the control of Codling Moth on Apple and all other tree fruits. Spray when bloom starts to fall and every three weeks thereafter for at least three to four applications. Also for gooseberries, currants, potatoes. Kills all leaf eating insects. Use 4 lbs. to 50 gallons of water. 1 lb. pkg., 35c; 4 lb. pkg., \$1.00. Not mailable.

SULPHUR DUSTING—For Roses, Evergreens, Cherries, for control of Red Spider, on Evergreens, Leaf Spot on Roses. Can be used dry or as a spray. 2 lb. can., 50c ea.

BORDEAUX MIXTURE—For control of Yellows and Black Spot on Roses, Cherries, for Blights on Raspberries, and Rust on Evergreens. 1 lb. can, 50c each.

PEAT MOSS

This is the finely ground Peat Moss, for use on Lawns, Evergreens, Shrubs, Roses and Flowers. Keeps the soil loose and holds moisture. Peat Moss worked into the soil under shade trees will help make a nice green lawn, where grass has refused to grow. PEAT MOSS worked into the soil around EVERGREENS will keep them in a good healthy condition. ROSE BEDS need PEAT MOSS.

1 bushel paper bags, 85c; large bales, \$5.00

Garden Needs

We have added for the year 1947 a few scarce items in Garden Needs. Our supply is limited, and we cannot say at this time what the supply will be next summer.

Clean Cut Power Mower

New Postwar Models

Light, Strong, Simple Construction. Perfectly Balanced, Easy to Operate. Cuts ½ to 4 inches. Cuts clean.

Write for Special Descriptive Sheet with Prices.

Clean Row Garden Tractor

Only three moving parts; no gadgets to give trouble. Makes tending your garden a pleasure. Perfectly balanced; light in weight.

Write for Special Descriptive Sheet with Prices.

Spray Pumps New Bucket Type \$4.50 each

With 3 feet of hose, high pressure nozzle, and 10 feet of hose, open nozzle. This is a good spray pump. To be used in a bucket. Will force water 50 feet from end of open nozzle. Just the thing for small garden or a few fruit trees. Inexpensive and easy to operate.

Chore Carts \$6.50 each

A light two-wheel cart for hauling things about the garden, for shopping, or for the golf bag. Will carry 150 pounds. Easy to handle boxes, baskets, rocks, bricks, and all sorts of things.

Bush Cherry

2 to 3 ft. trees, \$1.00 each

This is the really good Bush Cherry. Fruit about one-half the size of regular Cherry. Pit very small and flavor very good. We think much better than the common Cherry. Tree grows about 6 feet tall. Our supply is very limited.

PLANTING AND INSTRUCTION SHEETS FREE

Drop us a card or letter. We will send the sheets that interest you.

STRAWBERRIES AND RASPBERRIES—Planting and Spraying.
FRUIT TREES—Spraying guide.
ROSES—Planting, care and spraying.

SHADE TREES—Planting and care.
EVERGREENS—Planting and care.
LAWNS AND FERTILIZERS.

Open Sundays

This is a cordial invitation to visit our nursery . .

Plan a trip to our nursery. You'll see much to interest you and perhaps you will find a suggestion as to just the very things you need to make your grounds more beautiful and fruitful.

SELECT PERSONALLY SHRUBS, TREES
AND PLANTS

Hundreds of our customers come to the Nursery every year, select their SHRUBS and PLANTS, and take them home in their cars.

It will save you money to do this, also you see just what you are getting.

We Can Ship Anywhere!

TRANSPORTATION

We can ship our Nursery Stock anywhere you wish, by Express, Freight or Parcel Post. Also by Truck lines. Our prices listed are for the stock boxed or wrapped. Large fruit trees, shade trees, evergreens and shrubs must go by express or freight. Berry plants, roses and small quantity of shrubs can go by parcel post.

ALPHA NURSERY STOCK

Is grown on heavy, rich black loam, which insures good, strong, steady growth. Our aim is to grow the very best, most hardy and productive varieties adapted for the Northern central states.

We have been in the nursery business at Alpha, Illinois, for the past 56 years, and have a host of satisfied customers, as we try our best to treat every one fairly and squarely.

We try to serve every customer and planter of our goods so promptly, courteously, and thoroughly as to assure each the profit, pleasure and satisfaction he expects.

We Guarantee

our stock to be true to name. Should any items prove untrue, we will replace them.

But shall not at any time be held responsible for any amount greater than the original price.

We Replace

stock that dies at one-half price, if a list is sent us within four months after the shipment is made.

OPEN SUNDAYS

SPECIAL - TREES and PLANTS

Althea

ROSE OF SHARON

White Pink Blue

75c each

3 for \$1.80

3 ft. Plants

Single hollyhock-like flowers in late summer and fall; rich foliage. Grows in an upright pyramidal bush or small tree. Great favorite on account of its blooming when other flowers are gone.

Butterfly Bush

or Summer Lilac

50c each, 3 for \$1.35

Pink with orange eye, Dark Wine Red, Lavender Pink.

These Summer Lilac or Butterfly Bushes are tops in summer flowers. They bloom from July until late fall. The flowers are fragrant and come in terminal clusters with panicles 8 to 10 in. long. The plants will bloom this year.

MAGNOLIA (Soulangeana)

The most decorative and most popular of the Hybrid Magnolias, producing a wealth of very large rose colored blooms just before the leaves appear in the spring. The plants are grown on their own roots, and should not be compared with grafted plants which are cheaper but not hardy.

4 to 5 ft.—balled in earth..... \$12.00 each

3 to 4 ft.—balled in earth..... 9.50 each

Supply is very limited.

EVERBLOOMING ROSES

MIXED COLORS—We cannot list separate colors. These plants are all good standard varieties and good colors.

3 for \$1.25

These roses are No. 2 grade; the tops are short but good roots. Will bloom first summer.

CHOICE CANNAS

Red or Yellow

15 cents each

Evergreens

These Evergreens have been transplanted. They have good roots and well balanced tops. They are not to be compared with seedlings so often offered. They are 5 to 7 years old and are the same that we plant in our open fields to grow into larger trees.

Keep them well moist the first year; also cultivate them good.

These Evergreens are packed in moss when delivered. Never allow the roots to become dry.

Ground Covers

VINCA (Minor) Clumps 25c each

A trailing evergreen plant used to cover ground under shrubs and evergreens—blue flowers. Each clump can be divided into many small plants.

SPRUGE (pachysandra)

A splendid ground cover, glossy foliage, forming a dense mat. Does well in dense shade, especially under evergreens. Grows 6 inches tall in sun or shade.

6 in. plants, 25c each, \$2.00 for 10
